

COVID 2.0: An Updated Health Literacy ECHO for Providers

The data come in fast! We've got the updates. Once again, soaring case counts, rising hospitalizations, and public sentiment about prevention strain our health care system and workforce. Partnership, resource-sharing, and mutual support of health providers are more important than ever.

To address this, **Health Confianza is hosting a newly updated COVID-19 Health Literacy ECHO**. Health Confianza is a partnered initiative between UT Health San Antonio, UT San Antonio, and the San Antonio Metropolitan Health District to share relevant, usable information about COVID-19 with local providers. ECHO Sessions are hosted by a team of experts in infectious diseases, community health, and health literacy. Each session will include didactics followed by participant presentations of real-life situations and group discussion to share resources and inform care.

Sessions at 12:00 -1:00 pm (Central)

August 5	August 19	September 2	September 16
September 30	October 14	October 28	
November 11	December 9	December 16	

Register: bit.ly/c19-HL-ECHO

This activity has been designated for AMA PRA Category 1 Credit™.

What is ECHO?

Extension for Community Healthcare Outcomes, ECHO®, uses videoconferencing to connect health professionals to a multi-disciplinary team of experts to share knowledge and build capacity for delivering best-practice care.

Why join?

- Free continuing education credits **including Ethics Continuing Medical Education (CME)**
- Ongoing, case-based learning
- Engagement with a dynamic community of learning
- Professional growth and networking
- Capacity building for community-based clinics

This program is made possible and supported by the Office of Minority Health (OMH) of the U.S. Department of Health and Human Services (HHS) with 100 percent funded by OMH/OASH/HHS, or the U.S. Government.
